

Vision Health

Healthy eyes and vision are important to your well-being.

Comprehensive eye exams allow your eye doctor to thoroughly analyze the health of your eyes using a combination of tests. Many eye and vision conditions present no obvious symptoms, which is why regular comprehensive eye exams are so important. The earlier an eye disease or condition is diagnosed, the more effective treatment is likely to be to help maintain clear, healthy vision.

DESCRIPTION	SERVICES	COPAY
Routine vision exam to determine the need for corrective lenses	One routine vision exam per year; the benefit includes refraction	\$0 copay
Routine eye wear	\$100 maximum allowance per year for glasses or contacts
