

The NEW HTA Senior Savings Model for Insulin

Beginning January 1, 2021 our HealthTeam Advantage Diabetes & Heart Care HMO CSNP (chronic special needs plan) will offer eligible insulin products on our Select Care Tier 6 prescription drug formulary. This means these eligible insulin products will have a \$0 copay that extends through the coverage gap.

Nearly one in three Medicare beneficiaries has diabetes and approximately 3.3 million beneficiaries use one or more common forms of insulin. The \$0 copay through the Senior Savings Model reduces the financial barrier to obtaining insulin, which is a crucial part of many diabetics' treatment.

Medications Covered in the 2021 Senior Savings Model

It's important to note that not all injected medications that are used to treat diabetes are an insulin or insulin analog. The Tier 6 insulin medications that are covered by this \$0 copay are indicated by SSM (Senior Savings Model) in the requirements column in our formulary.

The following insulins are covered under the Senior Savings Model with a \$0 copay through the coverage gap:

- ◆ Fiasp®- Pen, FlexTouch® and Vial
- ◆ Insulin aspart prot & aspart- FlexPen®, Penfill and vial
- ◆ Lantus®- Solostar, Vial 100u/ml
- ◆ Levemir®- FlexTouch and Vial- 100u.ml
- ◆ Novolin® 70/30 Vial, FlexPen 100u/ml
- ◆ Novolin® N and R Vial, FlexPen 100u/ml
- ◆ Novolog® FlexPen, Penfill Vial
