

Preventive Dental Care

Preventive dental care is important to your health.

Dental health can have a direct impact on your overall health and well-being and may influence the development of certain conditions, such as diabetes and heart disease. Preventive dental services are included in all benefit offerings and include dental cleanings, oral exams, X-rays, and Medicare-covered exams. Please refer to the Summary of Benefits or the Evidence of Coverage for complete details regarding included preventive dental services.

As the state's leading dental insurance provider, Delta Dental® of North Carolina offers the largest network of dentists. There are more than 1,500 licensed dentists who accept Medicare Advantage plans in our network. More dentists means more convenience and access for you.

Not only is your dental network more accessible, your copays are more affordable. Copays for routine exams, cleanings, and X-rays are \$10 per preventive service.

DESCRIPTION	SERVICES	COPAY PER SERVICE
