## Required Annual Model of Care Training for CSNP Providers

The Center for Medicare and Medicaid Service (CMS) requires that all providers seeing beneficiaries enrolled in a Chronic Special Needs Plan (CSNP), such as our

Diabetes and Heart Care Plan participate annually in Model of Care (MOC) Training.

We need all administrators to support us by ensuring all providers have completed this requirement every year. HealthTeam Advantage is committed to making this training available to you and your providers on a variety of platforms, and in-person when feasible.

All providers can [visit our website](#) to access the training and choose one of the following formats:

1. Read the MOC Training Slides via **PowerPoint** and complete the attestation form\* at the end.
2. Read the MOC Training document via **PDF** and complete the attestation form\* at the end.
3. Watch the 2022 MOC Training **Video** and complete the attestation form\* at the end.

\*Please note that completing the training in full is required. An attestation form must be completed, signed, and submitted by the individual provider to obtain credit for the training.

If you have any questions about the status of your training and attestation requirements, you may email [providerconciierge@healthteamadvantage.com](mailto:providerconciierge@healthteamadvantage.com) or call [1-855-218-3334](tel:1-855-218-3334).

## The Coding Tip Corner

Looking ahead to the new year, the Risk Adjustment team is happy to announce a new segment in Provider Connections. Email coding questions to: [RiskAdjustment@healthteamadvantage.com](mailto:RiskAdjustment@healthteamadvantage.com). Even though we cannot send you a specific diagnosis code, we can direct you to the appropriate path. One of our other goals of this new segment is to keep you updated on changes as well as common coding errors.
