

Understanding Drug Payment Stages

Annual Deductible Stage

During this stage, **you pay the full cost** of your Tier 4 Non-Preferred Drug and Tier 5 Specialty Drug.

You stay in this stage until you have paid \$95 for your Tier 4 Non-Preferred Drug and Tier 5 Specialty Drug deductible.

During this stage, the out-of-pocket costs for Select Insulins will be \$0 for non-low income subsidy members

Initial Coverage Stage

During this stage, you pay a flat fee (copay) or a percentage of a drug's total cost (coinsurance) for each prescription you fill.

The plan pays the rest until your total drug costs (paid by you and the plan) reach \$4,660 (2023).

Coverage Gap Stage

During this stage, you pay 25 percent of the total cost for brand name drugs and 25 percent of the total cost for generic drugs PLUS a portion of the dispensing fee. Tier 1 & Tier 6 generics are covered at a \$0 copay. In addition Select Insulins are covered at a \$0 copay for non-low income subsidy members.

Once your out-of-pocket costs reach \$7,400 (2023), you move to catastrophic coverage.

Catastrophic Coverage Stage

In this stage, the plan will pay most of the cost of your drugs for the remainder of the year. You pay only a small copay or coinsurance for each filled prescription (see the EOC for details).

The plan and Medicare pay the rest until the end of the calendar year.
