Understanding Medicare

Medicare is the federal health insurance program for people 65 and over. People who have disabilities or certain diseases may qualify for Medicare benefits at a younger age.

To understand Medicare, it's helpful to learn a few terms:

Original Medicare includes two parts, known as Part A and Part B.

- ◆ **Part A is hospital insurance.** Most people do not pay a monthly premium for Part A.
- ◆ **Part B is medical insurance.** There is a monthly premium for Part B.
- ◆ **Original Medicare provides basic coverage,** but there will be gaps in the coverage.

Part C is called Medicare Advantage — an alternative to Original Medicare.

- ◆ Medicare Advantage is a Medicare-approved plan from a private insurance company that **includes Part A and Part B.**
- ◆ **Medicare Advantage plans typically include benefits that original Medicare does not cover,** such as vision, hearing, dental, and Part D (prescription coverage).
- ◆ **Many Medicare Advantage plans do not have a monthly premium,** but you still have to pay your Part B premium.

You're Eligible for Medicare If:

You are 65 or older and a U.S. citizen.

If you have been a legal resident for at least 5 years, you are also eligible.

You are under 65 and have a disability.

You automatically get Part A and Part B after you get disability benefits from Social Security or certain disability benefits from the RRB for 24 months.

You are turning 65 and will be receiving benefits from Social Security or the Railroad Retirement Board (RRB).

In some cases, you'll automatically get Part A and Part B starting the first day of the month you turn 65, otherwise you must enroll.

If your birthday is on the first day of the month, Part A and Part B will start the first day of the prior month.

You have ALS (Amyotrophic Lateral Sclerosis, also called Lou Gehrig's disease).

You automatically get Part A and Part B the month your disability benefits begin.

You have end-stage renal disease (ESRD).

If you're eligible for Medicare because of ESRD and you qualify for Part A, you can also get Part B. You'll need both Part A and Part B to get the full benefits available under Medicare.

You'll need to sign up for Medicare if:

- ◆ You are close to 65, but not collecting Social Security or Railroad Retirement Board benefits
- ◆ You worked for a railroad

You'll get Medicare automatically if:

- ◆ You are already collecting Social Security
- ◆ You are already on Railroad Retirement Board benefits
- ◆ You have been on Social Security disability for 24 months

If you're automatically enrolled in Medicare, you will receive your red, white, and blue Medicare card in the mail three months before your 65th birthday or your 25th month of disability.

Medicare Enrollment

When to Enroll

There are certain times of the year or specific circumstances when you can enroll in a Medicare plan.

When you're first eligible for Medicare (for example, when you turn 65), you have a 7-month window to sign up for Part A and/or Part B or a Medicare Advantage plan. That time period is 3 months before your birthday month, your birthday month, and 3 months after your birthday month. So, if you turn 65 in March, for example, you can enroll December through June.

Annual Enrollment Period

The Annual Enrollment Period (AEP) is October 15-December 7 every year. During this time, you can switch, drop, or join a Medicare Advantage plan.

Open Enrollment Period

The Open Enrollment Period (OEP) is January 1-March 31 every year. This is your only opportunity outside of the Annual Enrollment Period (October 15-December 7) to switch Medicare Advantage plans or return to Original Medicare.

Special Election Period

There are specific circumstances that make you eligible to enroll in a Medicare Advantage plan any time of the year. If you answer yes to any of the following questions, you qualify for a Special Election Period.

- ◆ Have you recently retired and lost your employer or union coverage?
- ◆ Have you recently moved to a different county or state?
- ◆ Are you currently receiving Extra Help with your healthcare costs?
- ◆ Do you no longer qualify for Extra Help with your healthcare costs?
- ◆ Have you recently left a Program of All-inclusive Care for the Elderly? (PACE)
- ◆ Have you recently obtained lawful presence in the United States?
- ◆ Do you live in a long-term care facility?
- ◆ Will you be moving into a long-term care facility?
- ◆ Have you recently moved out of a long-term care facility?
- ◆ Are you currently receiving Medicaid?
- ◆ Have you recently stopped receiving Medicaid?
- ◆ Have you recently been released from incarceration?
- ◆ Do you qualify for a Special Needs Plan (SNP)?

Benefits of a Medicare Advantage Plan

A Medicare Advantage plan provides all the Part A and Part B benefits of Original Medicare, plus much more.

Prescription drugs are usually covered. Most Medicare Advantage plans include Part D prescription drug benefits, so there's no need to find and pay for a separate Part D prescription drug plan.

Dental, hearing, and vision care are usually covered. Many Medicare Advantage plans include dental, hearing, and vision care benefits.

Some plans even include extra benefits. For instance, some Medicare Advantage plans include additional benefits like complimentary fitness memberships, an allowance for over-the-counter items, worldwide travel benefits, and more.

And your out-of-pocket costs are capped. Unlike Original Medicare, a Medicare Advantage plan has a set annual limit for out-of-pocket costs. Once you reach this limit, you pay nothing more for covered medical services.

! IMPORTANT

Even if you choose to be covered by a Medicare Advantage plan, you must first enroll in Medicare Parts A and B.
