This Drug List was updated on 09/01/2026. For more recent information or other questions, please contact HealthTeam Advantage at 877-905-9216 (TTY 711), between 8 a.m.-8 p.m. (EST), seven days a week, or visit www.htanc.com. You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, and from time to time during the year.

This Drug List does not provide a complete description of your prescription drug coverage. For more detailed information about your HealthTeam Advantage prescription drug coverage, please review your Evidence of Coverage and other plan materials.

You must continue to pay your Medicare Part B premium.

This is a partial, alphabetical list of drugs covered by the plan. Each drug is in one of five tiers, which is listed after the drug name. Each tier has a different copay or coinsurance amount based on the plan selected.

Some covered drugs may have additional requirements or limits to coverage. These requirements or limits are notated in the list following the drug name with the following abbreviations:

- **BD (Part B versus Part D)**—This drug may be covered under Medicare Part B or D depending upon the circumstances.
- **EX (Excluded Drugs)**—This prescription drug is not normally covered in a Medicare Prescription Drug Plan. The amount you pay when you fill a prescription for this drug does not count towards your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving extra help to pay for your prescriptions, you will not get any extra help to pay for this drug.
- **INS (Insulin)**—You won't pay more than **\$35** for one-month supply of insulin products.
- **LA (Limited Access)**—This prescription may be available only at certain pharmacies.
- **PA (Prior Authorization)**—You (or your physician) are required to get prior authorization before you fill your prescription for this drug. Without prior approval, we may not cover this drug.
- **QL (Quantity Limit)**—There is a limit on the amount of this drug that is covered per prescription, or within a specific time frame.
- **ST (Step Therapy)**—In some cases, you may be required to first try certain drugs to treat your medical condition before we will cover another drug for that condition.
- **VAC (Vaccine)**—Vaccine recommended by the Advisory Committee on Immunization Practices (ACIP) available at **\$0** cost-share.

Drug Tier

- **Tier 1—Preferred Generics**—Generic drugs that are available at the lowest cost share for this plan
- **Tier 2—Generics**—Generic drugs that are available at a higher cost to you than drugs in Tier 1
- **Tier 3—Preferred Brands**—Generic or brand drugs that are available at a lower cost to you than drugs in Tier 4
- **Tier 4—Non-Preferred Drugs**—Generic or brand drugs that are available at a higher cost to you than drugs in Tier 3
- **Tier 5—Specialty Drugs**—This is the highest-cost tier. Some injectables and other high-cost drugs

For further information on requirements for specific drugs, please refer to the 2027 Comprehensive Formulary. You can contact HealthTeam Advantage or visit our website at www.htanc.com for this document.
