Comprehensive Formulary

HealthTeam Advantage Diabetes & Heart Care (HMO C-SNP) H2624-001

Formulary ID: **26310**, Version Number **21**

This formulary was updated on **10/31/2026**. For more recent information or other questions, please contact your HealthTeam Advantage Healthcare Concierge at 1-888-965-1965
(TTY users should call 711), October 1 - March 31, 8 a.m. to 8 p.m. ET, seven days a week, or April 1 - September 30, 8 a.m. to 8 p.m. ET, Monday through Friday, or visit htanc.com.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this Drug List (formulary) refers to "we," "us", or "our," it means Care N' Care Insurance Company of North Carolina. When it refers to "plan" or "our plan," it means HealthTeam Advantage.

This document includes Drug List (formulary) for our plan which is current as of 11/01/2026 For an updated Drug List (formulary), please contact us. Our contact information, along with the date we last updated the Drug List (formulary), appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2027, and from time to time during the year.

What is the HealthTeam Advantage Diabetes & Heart Care (HMO C-SNP) formulary?

In this document, we use the terms Drug List and formulary to mean the same thing. A formulary is a list of covered drugs selected by HealthTeam Advantage in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. HealthTeam Advantage will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a HealthTeam Advantage network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the formulary change?

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the formulary during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow the Medicare rules in making these changes. Updates to the formulary are posted monthly to our website here: www.healthteamadvantage.com.

Changes that can affect you this year*:* In the below cases, you will be affected by coverage changes during the year:

- **Immediate substitutions of certain new versions of brand name drugs and original biological products.** We may immediately remove a drug from our formulary if we are replacing it with a certain new version of that drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand name drug or original biological product on our formulary but immediately move it to a different cost-sharing tier or add new restrictions.

  We can make these immediate changes only if we are adding a new generic version of a brand name drug or adding certain new biosimilar versions of an original biological product, that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

If you are currently taking the brand name drug or original biological product, we may not tell you in advance before we make an immediate change, but we will later provide you with information about the specific change(s) we have made.

If we make such a change, you or your prescriber can ask us to make an exception and continue to cover for you the drug that is being changed. For more information, see the section below titled “How do I request an exception to the HealthTeam Advantage Diabetes & Heart Care (HMO C-SNP)’s formulary?”

Some of these drug types may be new to you. For more information, see the section below titled “What are original biological products and how are they related to biosimilars?”

- **Drugs removed from the market.** If a drug is withdrawn from sale by the manufacturer or the Food and Drug Administration (FDA) determines to be withdrawn for safety or effectiveness reasons, we may immediately remove the drug from our formulary and later provide notice to members who take the drug.

- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may remove a brand name drug from the formulary when adding a generic equivalent or remove an original biological product when adding a biosimilar. We may also apply new restrictions to the brand name drug or original biological product or move it to a different cost-sharing tier, or both. We may make changes based on new clinical guidelines. If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug, or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective. Alternatively, when a member requests a refill of the drug, they may receive a 30-day supply (31-day if resides in long-term care facility) of the drug and notice of the change.

  If we make these other changes, you or your prescriber can ask us to make an exception for you and continue to cover the drug you have been taking. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the HealthTeam Advantage Diabetes and Heart Care (HMO C-SNP)’s formulary?”

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2026 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2026 coverage year except as described above. This means these drugs will remain available at the same cost sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the formulary for the new benefit year for any changes to drugs.

The enclosed formulary is current as of **11/01/2026.** To get updated information about the drugs covered by HealthTeam Advantage please contact us. Our contact information appears on the front and back cover pages. In addition, each month the plan posts an updated Comprehensive formulary and a Formulary Addendum that has all of the changes on the website.

How do I use the formulary?
There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, Cardiovascular Agents. If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page **105.** The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

HealthTeam Advantage covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs work just as well as and usually cost less than brand name drugs. There are generic drug substitutes available for many brand name drugs. Generic drugs usually can be substituted for the brand name drug at the pharmacy without needing a new prescription, depending on state laws.

What are original biological products and how are they related to biosimilars?

On the formulary, when we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have alternatives that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

For discussion of drug types, please see the Evidence of Coverage, Chapter *5,* Section 3.1, "The 'Drug List' tells which Part D drugs are covered."

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** HealthTeam Advantage requires you or your prescriber to get prior authorization for certain drugs. This means that you will need to get approval from HealthTeam Advantage before you fill your prescriptions. If you don't get approval, HealthTeam Advantage may not cover the drug.

- **Quantity Limits:** For certain drugs, HealthTeam Advantage limits the amount of the drug that HealthTeam Advantage will cover. For example, HealthTeam Advantage provides 30 tablets per prescription for FARXIGA. This may be in addition to a standard one-month or three-month supply.

- **Step Therapy:** In some cases, HealthTeam Advantage requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, HealthTeam Advantage may not cover Drug B unless you try Drug A first. If Drug A does not work for you, HealthTeam Advantage will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online a document that explains our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask HealthTeam Advantage to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the HealthTeam Advantage's formulary?" on page vi for information about how to request an exception.

What if my drug is not on the formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact your Healthcare Concierge and ask if your drug is covered. For more information, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you learn that HealthTeam Advantage does not cover your drug, you have two options:

- You can ask your Healthcare Concierge for a list of similar drugs that are covered by HealthTeam Advantage. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by HealthTeam Advantage.

- You can ask HealthTeam Advantage to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the HealthTeam Advantage Diabetes & Heart Care (HMO C-SNP)'s formulary?

You can ask HealthTeam Advantage to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.

- You can ask us to waive a coverage restriction including prior authorization, step therapy, or a quantity limit on your drug. For example, for certain drugs, HealthTeam Advantage limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

- You can ask us to cover a formulary drug at lower cost-sharing level unless the drug is on the specialty tier. If approved, this would lower the amount you must pay for your drug.

Generally, HealthTeam Advantage will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug, or applying the restriction would not be as effective for you and/or would cause you to have adverse effects.

You or your prescriber should contact us to ask for a tiering or, formulary exception, including an exception to a coverage restriction. ***When you request an exception, your prescriber will need to explain the medical reasons why you need the exception.*** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can ask for an expedited (fast) decision if you believe, and we agree, that your health could be seriously harmed by waiting up to 72 hours for a decision. If we agree, or if your prescriber asks for a fast decision, we must give you a decision no later than 24 hours after we get your prescriber's supporting statement.

What can I do if my drug is not on the formulary or has a restriction?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or you may be taking a drug that is on our formulary but has a coverage restriction, such as prior authorization. You should talk to your prescriber about requesting a coverage decision to show that you meet the criteria for approval, switching to an alternative drug that we cover, or requesting a formulary exception so that we will cover the drug you take. While you and your doctor determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or has a coverage restriction, we will cover a temporary 30-day supply (31-day if resides in long-term care facility). If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply (31-day if resides in long-term care facility) of medication. If coverage is not approved, after your first 30-day supply (31-day if resides in long-term care facility), we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

In addition, if you experience a change in your treatment setting due to the level of care you require, we will allow an emergency transition or level of care fill. Such transitions include:

- If you are discharged from a hospital or skilled nursing facility to a home setting.
- If you are admitted to a hospital or skilled nursing facility from a home setting.
- If you transfer from one skilled nursing facility to another and that new facility is serviced by a different pharmacy.
- If you end your skilled nursing facility Medicare Part A stay – where payments include all pharmacy charges – and now you need to use your Part D plan benefit.
- If you give up Hospice status and revert back to standard Medicare Part A and B coverage.

HealthTeam Advantage Diabetes & Heart Care (HMO C-SNP) formulary

The formulary that begins on page 1 provides coverage information about the drugs covered by HealthTeam Advantage. If you have trouble finding your drug in the list, turn to the Index that begins on page **105.**

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., FARXIGA) and generic drugs are listed in lower-case italics (e.g., *atorvastatin*).

The information in the Requirements/Limits column tells you if HealthTeam Advantage has any special requirements for coverage of your drug.

All drugs on this formulary available via mail-order benefit. Contact your Healthcare Concierge for details. Our contact information appears on the front and back cover pages.

KEY:

- **BD** = Part B versus Part D – This drug may be covered under Medicare Part B or Part D depending upon the circumstances.
- **EX** = Excluded Drugs - This prescription drug is not normally covered in a Medicare Prescription Drug Plan. The amount you pay when you fill a prescription for this drug does not count towards your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving extra help to pay for your prescriptions, you will not get any extra help to pay for this drug.
- **INS** = Insulin – You won't pay more than $0 for one-month supply of insulin products on Tier 6.
- **PA** = Prior Authorization – You (or your physician) are required to get prior authorization before you fill your prescription for this drug. Without prior approval, we may not cover this drug.
- **QL** = Quantity Limits – There is a limit on the amount of drug that is covered per prescription, or within a specific time frame.
- **ST** = Step Therapy – In some cases, you may be required to first try certain drugs to treat your medical condition before we will cover another drug for that condition.
- **VAC** = Vaccine – Vaccine recommended by the Advisory Committee on Immunization Practices (ACIP) available at $0 cost-share

Every drug on HealthTeam Advantage's Drug List is in one of six cost-sharing tiers. The second column of the Drug List contains the tier for each drug.

- **Tier 1 – Preferred Generics**: Generic drugs that are available at the lowest cost-share for this plan.
- **Tier 2 – Generics**: Generics that are available at a higher cost to you than drugs in Tier 1.
- **Tier 3 – Preferred Brands**: Generic or brand drugs that are available at a lower cost to you than drugs in Tier 4.
- **Tier 4 – Non-Preferred Drugs**: Generic or brand drugs that are available at a higher cost to you than drugs that are in Tier 3.
- **Tier 5 – Specialty Drugs**: This is the highest cost tier. Includes some injectables and other high-cost drugs.

- **Tier 6 – Select Care Drug**: Generic or brand drugs that provide the best value for treatment or prevention of many conditions. There is $0 copay for drugs in this tier including vaccines and insulins. Vaccines recommended by ACIP in this tier are available at $0 cost-share.

During the Deductible Stage you pay 100% of the cost of medications in Tier 4 and Tier 5. During Initial Coverage Stage, the plan pays its share of the cost of your covered prescription drugs, and you pay your share (your copayment or coinsurance amount). Your share of the cost will vary depending on the drug and where you fill your prescription. For more information on Copayment and Coinsurance, please review your Evidence of Coverage.
